Did you know...

NOT JUST PEACE WALLS:

Interfaces can be any boundary where inter or intra community tension can arise. These could be a road, the boundary between housing developments and may only be known to locals.

PARTNER UP OR FLY SOLO:

Applicants can partner with other organisations to increase your capacity to deliver or to run a cross community project. Or apply on your own and focus on the young people in your own groups.

STAY LOCAL:

Diversionary alternatives can be delivered locally and funding for residential trips is also available. Funding is available for both rural and urban areas.

YOUR OUTCOMES:

You can deliver activity to meet the needs of the young people in your area as well as the programme outcomes e.g. Mental Health, Training, Leadership, Skills etc.

Support is available:

There will be workshops available to talk through the applications process. Resources are available on delivering youth activities, workshops and resources for good relations work. We can connect you with other groups if you want to partner with another local organisation. Recruitment support and networking opportunities with other groups are available.
