What is a Local Government District (LGD)?

A Local Government District (LGD) in Northern Ireland is an administrative area established for the purposes of local governance. LGDs are responsible for delivering local services and facilities to the communities within their boundaries. These services typically include waste collection and management, local planning and development control, community services, leisure and recreational facilities, environmental health, and economic development. Each LGD is governed by an elected council that makes decisions on behalf of its constituents, ensuring that local needs and priorities are addressed. There are eleven LGDs in Northern Ireland, each contributing to the overall structure of regional governance.

What is a District Electoral Area (DEA)?

A District Electoral Area (DEA) is a subdivision within a Local Government District (LGD) in Northern Ireland, created for electoral purposes. Each DEA comprises a number of electoral wards and is represented by several councillors who are elected by the residents within that area. The purpose of DEAs is to organize local elections and ensure proportional representation on the council. The number of DEAs and the boundaries of each are determined by the Local Government Boundaries Commissioner, taking into account population size and distribution to maintain balanced representation. DEAs play a crucial role in local governance by facilitating fair and effective political representation within the LGDs.

What is a Super Data Zone (SDZ)?

A Super Data Zone (SDZ) is a geographical area used for statistical and data analysis purposes. These zones are typically larger than standard data zones and are designed to provide more robust statistical data by aggregating information from multiple smaller zones. SDZs are used in various fields, including public health, education, and economic development, to analyse trends, identify needs, and allocate resources effectively. The larger population size within an SDZ helps to ensure that the data collected is more comprehensive and statistically significant, aiding in more accurate and detailed analysis for policymaking and planning.

What is a Data Zone (DZ)?

A Data Zone is a small geographical unit used for statistical purposes, often employed in the analysis and dissemination of population, social, and economic data. These zones are designed to provide detailed and localized information that can support various aspects of public policy, planning, and resource allocation. Typically, a data zone encompasses a population ranging from 500 to 1,000 residents, allowing for the collection of granular data that reflects the characteristics and needs of specific communities.

Data Zones are used by government agencies, researchers and planners to monitor trends, assess the impact of policies and identify areas requiring intervention or support. By breaking down regions into smaller units, data zones facilitate more precise and actionable insights into local demographics, economic conditions, health outcomes and other critical metrics.

SECTION 1.0 DEMOGRAPHICS

1.1 Demographics - Fermanagh and Omagh Local Government District

Fermanagh and Omagh, established in 2015, is one of Northern Ireland's eleven local government districts. Located in the western part of the region, it combines the former Fermanagh District and Omagh District. Known for its picturesque lakes and rural beauty, the district supports a thriving tourism industry alongside agriculture, with adequate transport links facilitating access to its natural attractions.

The population of Fermanagh & Omagh local government district in 2021 census is 116,994 people, of which 37,791 are aged 0-25 years, which equates to 32.3% of the population.

The council area is divided into seven District Electoral Areas (DEAs):

1. **Enniskillen DEA:** Includes the town of Enniskillen and its surrounding areas.

2. **Erne East DEA:** Covers rural areas around Lisnaskea and Newtownbutler.

3. **Erne North DEA:** Includes areas like Irvinestown and Kesh.

4. **Erne West DEA:** contains rural areas such as Belcoo and Garrison, Boho, Cleenish and Letterbreen, Derrygonnelly, Derrylin and Florence Court and Kinawley.

5. **Mid Tyrone DEA:** Covers rural areas around Omagh and Beragh.

6. **Omagh DEA:** Includes Omagh town and its surrounding areas.

7. **West Tyrone DEA:** Covers rural areas around Castlederg and Drumquin.

Source: Census 2021

Chart 23: Percentage of Youth Population living in Deprivation

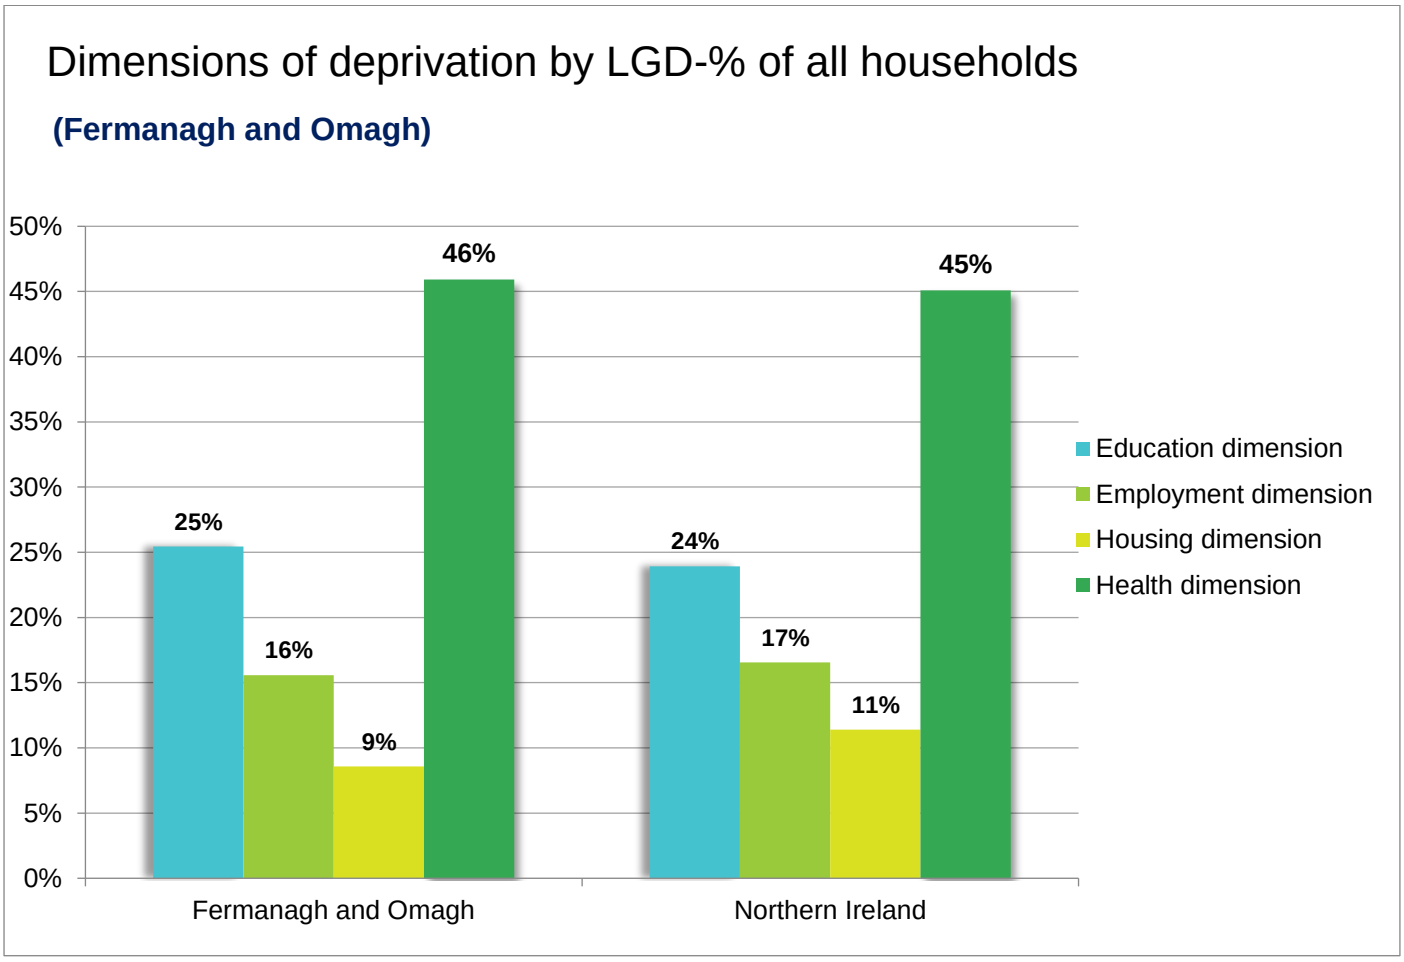

2.2 Dimensions of Household Deprivation (Census 2021)

The dimensions of deprivation used to classify households are indicators based on four selected household characteristics using 2021 Census data:

1. **Education** - A household is classified as deprived in the education dimension if no one has at least level 2 education and no one aged 16 to 18 years is a full-time student.
2. **Employment** - A household is classified as deprived in the employment dimension if any member, not a full-time student, is either unemployed or economically inactive due to long-term sickness or disability.
3. **Housing** - A household is classified as deprived in the housing dimension if the household's accommodation is either overcrowded or has no central heating.
4. **Health** - A household is classified as deprived in the health dimension if any person in the household has a health problem or disability lasting or expected to last 12 months or more that reduces their ability to carry out day to day activities and/or who has general health that is bad or very bad.

2.2.1 Dimensions of Household Deprivation, Fermanagh and Omagh

Chart 24: Percentage of households that are deprived in each dimension for Fermanagh and Omagh.

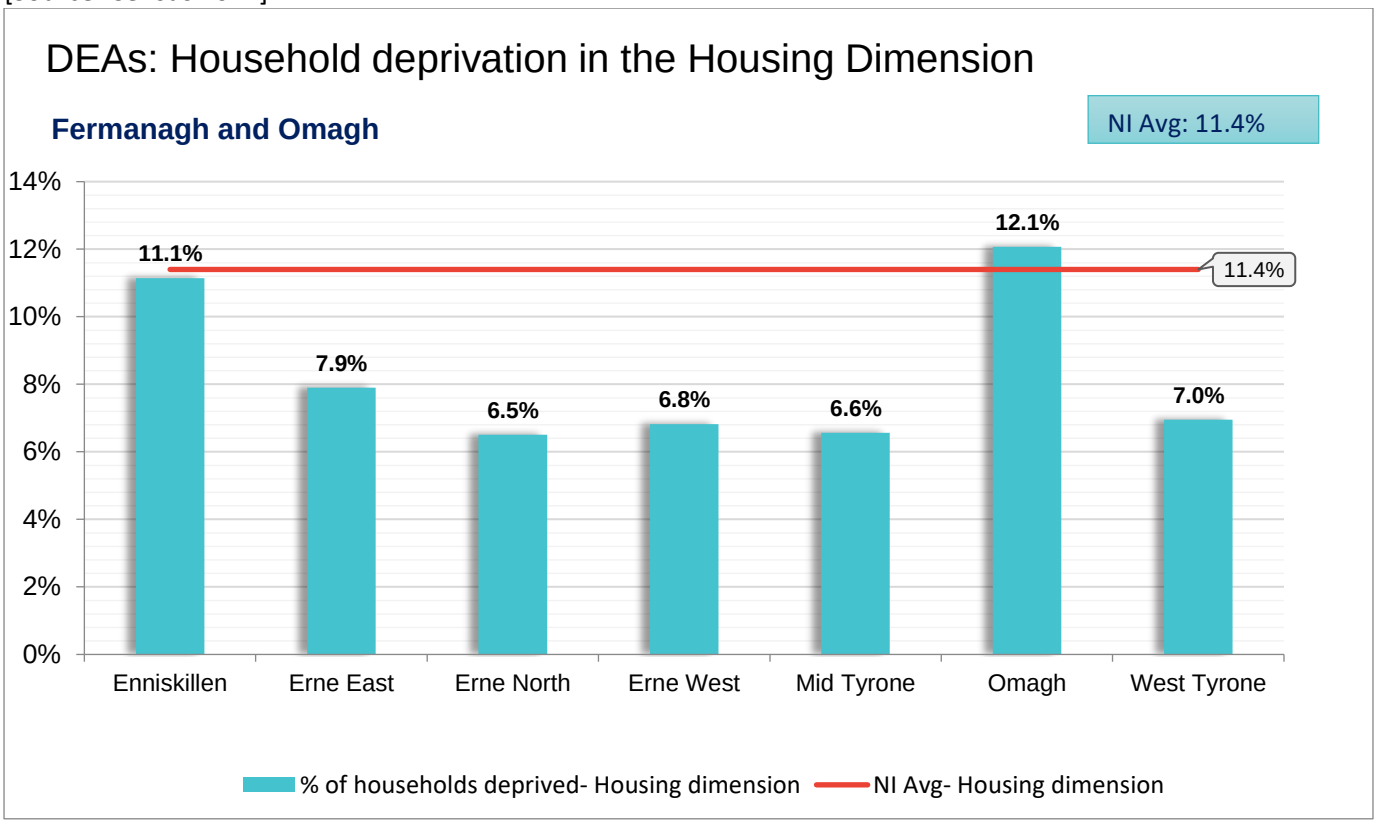

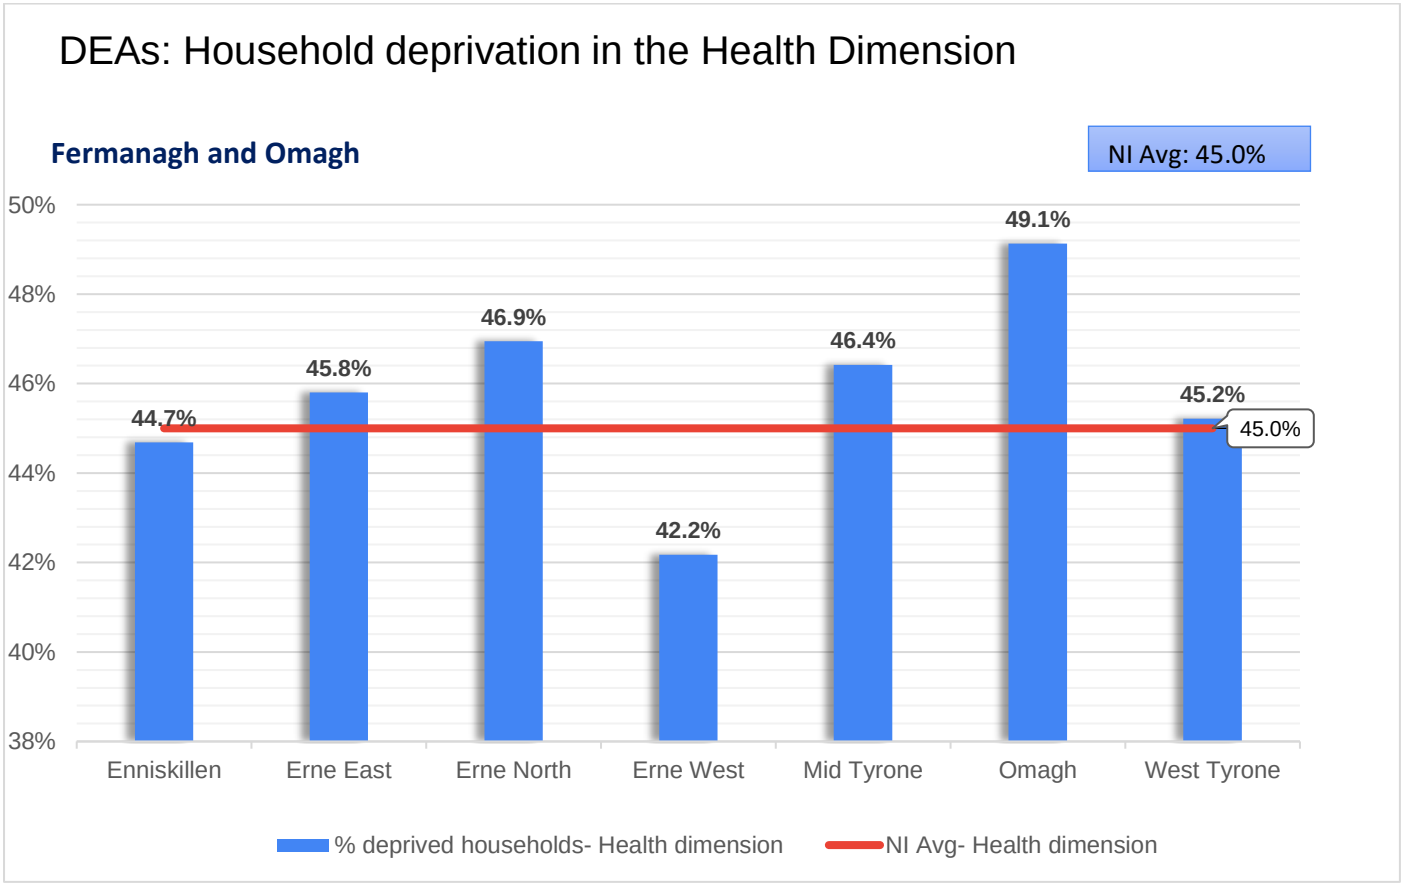

Chart 28: Percentage of households that are deprived in the Health dimension, by DEA

[Source: Census 2021]

2.3 Social Grade

The 2021 Census has classified households based on approximated social grade using the occupational status of the Household Reference Person, as follows:

- AB: Higher and intermediate managerial, administrative and professional occupations
- C1: Supervisory, clerical, and junior managerial, administrative and professional occupations
- C2: Skilled manual occupations
- D and E: Semi-skilled and unskilled manual occupations; unemployed and lowest grade occupations

Chart 29 Social Grades D and E represents low social grade and a proxy measure of socio-economic deprivation.

2.4 Adult unemployment

Chart 32: Percentage of households that do not have at least one adult in employment in Fermanagh and Omagh. A comparison between all households and only those that contain dependent children is shown [Source Census 2021].

A dependent child is a person aged 0 to 15 in a household (whether or not in a family) or aged 16 to 18 in full-time education and living in a family with his or her parent(s) or grandparent(s). It does not include any children who have a spouse, partner or child living in the household.

Fermanagh and Omagh Local Government District

2.7 Child Poverty

Children in Poverty

The proportion of children in relative poverty (Before Housing Costs) is estimated to be 24% (approximately 109,000) in 2022/23, which is higher than the estimate of 18% in 2021/22. This is a statistically significant increase. Children living in absolute poverty rose from 15% to 19% (approximately 86,000), over the same period.[1]

Over the last ten years, the proportion of children in relative poverty (Before Housing Costs) has fluctuated between a high of 25% in 2014/15 and a low of 18% in 2021/22. The proportion of children in absolute poverty (Before Housing Costs) shows a decreasing trend between 2012/13 and 2017/18 before beginning to fluctuate in more recent years.

The long-term trend shows that children are at a higher risk of living in poverty than the overall Northern Ireland population in both relative and absolute measures.[2]

Relative Poverty

In 2022/23 18% of individuals in NI (approximately 349,000), were considered to be in relative poverty (BHC), an increase from 16% in 2021/22.

An individual is considered to be in relative poverty if they are living in a household with an equivalised income below 60% of UK median income in the year in question.

This is a measure of whether those in the lowest income households are keeping pace with the growth of incomes in the population as a whole.

In 2022/23 the relative poverty threshold for a couple with no children was an income of £373 per week (Before Housing Costs) from all sources. For a couple with children the threshold would be higher and for a single person (without children) the threshold would be lower (£250).

What is Absolute Poverty

In 2022/23 14% of individuals in NI (approximately 271,000), were considered to be in absolute poverty (Before Housing Costs), an increase from 13% in 2021/22.

An individual is considered to be in absolute poverty if they are living in a household with an equivalised income below 60% of the (inflation adjusted) UK median income in 2010/11.

This is a measure of whether those in the lowest income households are seeing their incomes rise in real terms.

In 2022/23 the absolute poverty threshold for a couple with no children was an income of £347 per week Before Housing Costs (). For a couple with children the threshold would be higher and for a single person (without children) the threshold would be lower (£232).

4.5 Childhood Obesity and Overweight Health

Diet/childhood BMI

Chart 78: The proportion of children who are classified as obese or, overweight or obese, extracted from the Child Health System.

Overweight/obese figures and obesity figures are presented by academic year. The information relates to the height and weight information of Primary 1 pupils who were aged between 4 years 2 months and 6 years 2 months and of Year 8 pupils who were aged between 11 years 2 months and 13 years 2 months at the time of measurement. The height and weight information is converted into a Body Mass Index score for each pupil. The BMI has been categorized using International Obesity Task Force growth charts which consider age and gender, allowing those who are either overweight or obese to be identified.

4.9 Suicide Deaths in Northern Ireland

Chart 85: Fermanagh and Omagh suicide stats 2013-2023

Source: NISRA 2025

In 2023, one in every five suicide deaths was someone under the age of 30. This is in line with previous years. Suicide remains the leading cause of death in males under 50. Of the 561 male deaths registered in 2023 where the deceased was under 50 years of age,107 were to suicide (19.1%).

In 2023, suicide deaths were highest for men between the ages of 25 and 29 at 26 deaths, while for women the highest number of suicide deaths were between the ages of 50 and 54.

The suicide rate (age-standardised) in Northern Ireland was 13.3 deaths per 100,000 population in 2023. This rate has fluctuated since the start of the revised series (2015), ranging from 11.9 per 100,000 in 2016 to 14.3 per 100, 000 in both 2018 and 2021.

The percentage of suicides in 2023 within Northern Ireland's most deprived areas (28.5 per cent) was over twice that of the least deprived areas (13.1 per cent).

The Northern Trust had the highest number of suicides in 2023 (56), followed by Belfast Trust (50). The Western Trust had the lowest number of suicides in 2023 (36).

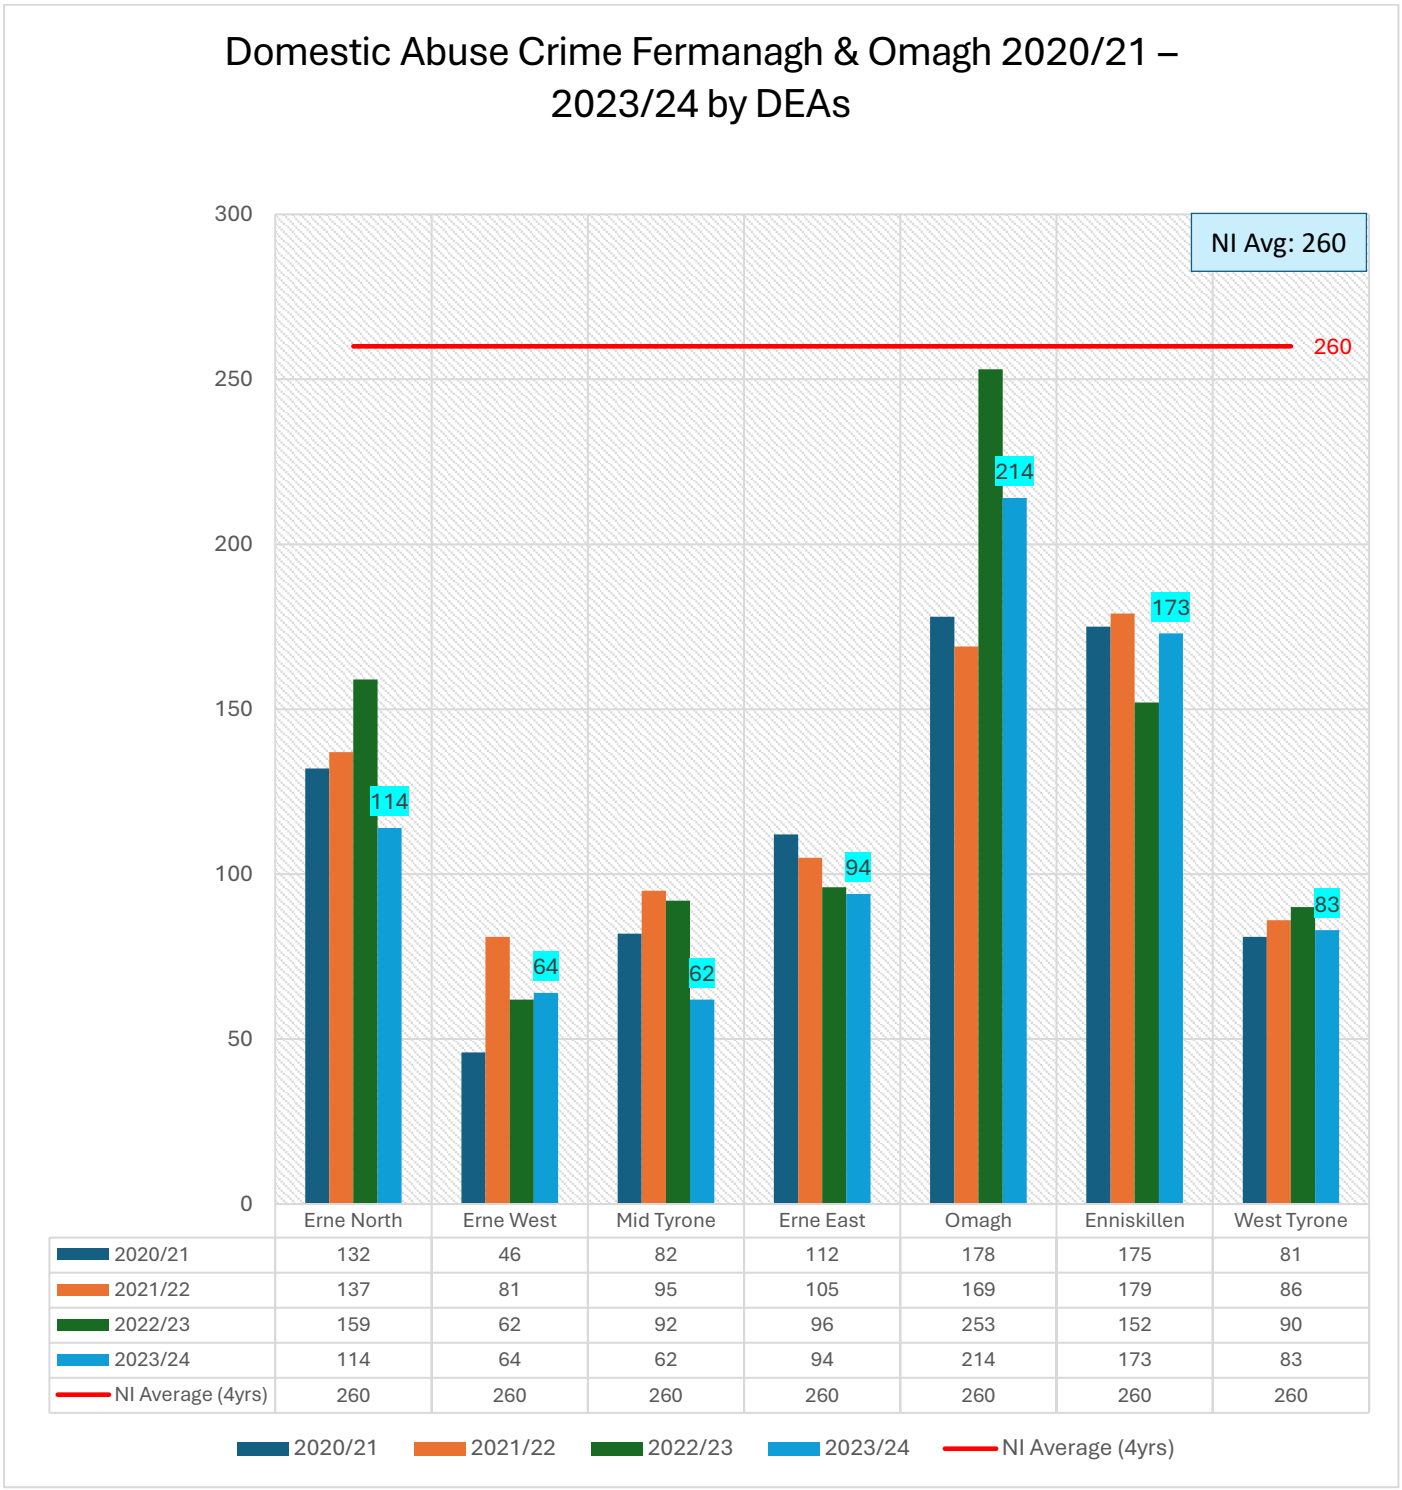

171 (77.4 per cent) of the 221 suicide deaths in 2023 were males and 50 (22.6 per cent) were females. The age-standardised rate for males increased from 19.2 per 100,000 males in 2022 to 20.9 in 2023, while for females, the equivalent rate increased from 5.7 per 100,000 females in 2022 to 5.9 in 2023.
