- Access to safe, inclusive and welcoming spaces where young people feel heard, supported, and connected is limited, particularly for young people from LGBTQIA+ Ethnic Minority & Newcomer backgrounds
- Young people face barriers to educational achievement and engagement, leading to low aspirations and uncertainty about their futures and limited pathways into employment, training and further education
- Young people lack access to life skills education and preparation for adulthood, limiting their independence and resilience
- The emotional health and wellbeing of young people is negatively impacted by anxiety, bullying, online vulnerabilities, stress, body image concerns, risk taking behaviours and social isolation
- School suspension rates are higher, suggesting there are challenges in fully supporting the social and emotional needs of young people
- Experiences of racism, prejudice, and exclusion, especially among minority ethnic and newcomer youth
- Delicate feelings of safety in homes, schools, and communities affect young people's sense of stability and trust
- Young people lack access to opportunities which support them to raise their long-term aspirations
- Ongoing peer pressure and substance misuse, with few positive alternatives or protective influences
